

REISSER[®] R2 WOODSCREWS

THE "CUTTER"

Application:

The R2 Cutter is ideal for working close to the edge of timber and board materials as the cuts on the thread help to reduce splitting dramatically (N.B. up to 25mm .1 cut only).

The ribs and tucks allow the screw to self-countersink flush without countersinking beforehand.

HEAD TYPE	RE-INFORCED CSK WITH RIBS & TUCKS UNDERNEATH
DRIVE	WIDE, DEEP POZI
FINISH	YELLOW TROPICALIZED
THREAD	SINGLE THREAD WITH 2 SLOTS CUT OUT (1 CUT UP TO 25mm)
